16:00	16:30	10	7			2	6	8	9	15	13	
Demonstrations in place for Final Session: 17:25 to 18:30												
17:25	18:30	10	7	1	3	2	6	8	9	15 5&13		

Notes on the Demonstrator Schedule

- 1 The Tele-medicine (4) using Access Grid is conditional on sound at Cambridge being sorted out.
It also has to articulate with the rest of the AG schedule.
- 2 The above change-overs in locations 8, 9 & 10 are thought feasible (but check during rehearsals)
- 3 MyGrid (15), Chemical Structures (16) and Geodise (18) have been assumed capable of reaching the standard
Those not reaching it will be dropped, and the others spread.
- 4 GridOne D (17), Discovery Net (19) and HEX (20) have been assumed incapable of reaching the standard
Those demonstrating at NeSC before the 21st April that they have a viable demo will be reconsidered.
- 5 This implies demonstrators 10 & 7 are most likely to catch the attention of X, that the demonstrators
1 & 3 are the next most likely, and that the others have a chance.
